Take time now to plan for tomorrow.

Planning for your future can seem overwhelming, especially when you are young. If you are feeling unprepared, know that you are not alone. Help is available. EducationPlanner provides practical advice so you can find the career and educational path that's right for you. Take a look:

- **Career Planning**
  - Don't worry if you don't yet know what your future career is. Let us help you find out.

- **Preparing for School**
  - Applying to college can be a daunting task. Get tips on preparing yourself for admissions success.

- **Paying for School**
  - Worried about the costs of school but don't know where to begin? You've come to the right place.

- **Self-Assessments**
  - Use our interactive self-assessments to find out more about yourself and discover what you're good at.

- **Ask a Counselor**
  - Take a look at some common questions counselors get from students.
Students

Career Planning

Career Planning Checklists
We provide career planning checklists for middle school and high school. You may find it especially helpful to reference this content when working with middle school students during a computer lab session. It takes only a few minutes to cover, but it gets students to think.

Find Careers
Give this section heavy use during computer lab sessions with students.

- Career Cluster Activity
  This computer lab activity is for any grade from 6 to 12. Guide students to this activity and have them complete all four pages. Results appear at the end of the activity.
  Students can click on a career cluster on the results page to go to O*NET OnLine. Here, students can explore occupations and learn about:
  - Tasks
  - Knowledge
  - Skills
  - Abilities
  - Education
  - Wages & Employment Trends
  - And more...

- Which Careers Match Your Skills?
  This activity is very quick and easy and gives instant results. Students check the boxes next to skills they like to do and select “Show Me the Results!”

- Career Search
  The Career Search takes students to Find Occupations on O*NET OnLine. There are many ways to search, including:
  - Keyword—Search by word, phrase, or title.
  - Career Cluster—Search occupations that are similar or in the same field.
  - Industry—Search jobs within a specific industry.
  - Job Zone—Search by levels of education, experience, and training.
  - Bright Outlook—Search occupations that are rapidly growing or new and emerging.
  - Job Family—Search occupations based on work performed, skills, education, training, and credentials.
  - STEM Discipline—Search occupations in science, technology, engineering, and mathematics (STEM) disciplines.

Tips

Consider using a SMART Board or a projector and computer to show students how to navigate to O*NET OnLine.
Have students write down the top three to five jobs they find, along with the educational requirements and salary. At the end of class, ask students to share with the group as a time filler and for group interaction.
Encourage students to look at the job titles they are NOT familiar with to learn more. Many students go to what is familiar and may miss out on a unique and interesting job.
Students of all ages care about where the money is!! Look at Wages & Employment Trends first to keep their interest. Some students will not even look at a job if it doesn’t pay enough, while others may change their minds about their choice of career and college degree.

This activity is good for middle school students to do before they do the Career Cluster Activity.
Have middle school students record two or more careers to research further on EducationPlanner.org using the Career Search. They can also check if the other self-assessments give the same results as this one.

When working with middle school students, refer them to the Keyword, Career Cluster, Bright Outlook, and Green Economy Sector searches. The other searches may be too confusing for students younger than 9th grade.
When working with high school students, point out the Job Zone, Bright Outlook, Green Economy Sector, and STEM Discipline searches. Students may find “other” jobs that they may not even know about.
Use a class session to have students explore only the Career Cluster search. Students can also use the Career Videos link on EducationPlanner to search by clusters to watch videos.
Career Videos
The Career Videos link takes students to CareerOneStop. Here, students can watch:
- Cluster & Careers Videos
- Career Videos in Spanish
- Skill & Ability Videos
- Industry Videos
- Work Option Videos

Hot Jobs for the Future
Hot Jobs for the Future takes students to Browse Bright Outlook Occupations on O*NET OnLine. These occupations are predicted to grow much faster than average, with more than 100,000 job openings by 2018, and they are considered to be new and emerging within high-growth industries.

It’s Not All About Money
This content is good for students to explore, but it may work better with high school students than with middle school students.

Schools for Your Career
This content takes students to the College Board website, where they can search for schools via their career and major. Many students have a hard time finding schools using their major, as majors have different names at different schools.

Get Experience
This section covers Internships and Job Shadowing. Students can explore and read this content on their own. Not all schools have job shadowing activities, so this content may or may not be useful at your school.

Explore Salary and Pay
- The More You Learn, the More You Earn
  All grade levels can and should use this interactive tool. You may want to explain this tool in a group setting rather than individually to better show how an increase in education affects a student’s salary potential.
- Does College Pay Off?
  Students can explore and read this content on their own.
- What to Expect in the Real World
  Students can explore and read this content on their own.

Preparing for School
Preparing for School Checklists
We provide checklists on how to prepare for college in middle school and high school.
Standardized Tests
Get information on a wide variety of standardized tests, including links to websites where students are able to take practice tests.

- **GED**\(^1\) Tests — Useful for students in the Youth Program at CareerLink locations or for incarcerated youth
- **PSAT/NMSQT**\(^2\) Test — A practice test for the SAT test and a qualifying test for the National Merit Scholarship
- **ACT**\(^3\) Test — An alternative to the SAT test for college admissions
- **SAT**\(^4\) Test — A test for college admissions
- **SAT Subject**\(^4\) Tests — Optional; can really help students with admissions into college if their scores are good
- **GRE**\(^5\) Test — For graduate students
- **GMAT**\(^6\) — For graduate students
- **MCAT**\(^7\) — For graduate students
- **LSAT**\(^8\) — For graduate students

Find Schools
On the main page, we have organized content under two main subject areas: Let the college search begin and Narrow down your list of favorites.

- **What to Look for in a School**
  This interactive checklist lets students fill in their preferences. Students can fill it in online and print it from the screen, or they can download the worksheet, fill in the worksheet and print.

- **College Match Maker**
  This content takes students to the College Board website where they can answer questions specific to their interests and schooling to find colleges that meet their needs. Included are:
  - Type of School
  - Location
  - Majors
  - Cost & Financial Aid
  - Admissions
  - Sports & Activities
  - Housing & Programs
  - Specialized Options

As students answer questions and specify their preferences, the number of colleges that meet their selected criteria decreases. This number appears at the top of each College MatchMaker page.

On the results page, have students select “How do I Stack Up?” and compare their grades, activities, and test scores to what the colleges they matched up with require. This can be a real “eye opener” for students who think they can get in anywhere and for students who don’t think they are good enough for college.

Use this activity with 11th grade students before they start searching for a school. It will help them to know what to look for in a school.

\(^6\)GMAT is a registered trademark of the Graduate Management Admission.

\(^7\)MCAT is a registered trademark of the Association of American Medical Colleges.

\(^8\)LSAT is a registered trademark of the Law School Admission Council.
Schools From A to Z
Students can do a quick search to find a school in this alphabetical listing. Additional links include:
- **See Profile**—Provides a snapshot of the school
- **Am I on Track?**—Lets students see if they meet the school’s admissions requirements
- **How do I Stack Up?**—Lets students compare themselves to students who are enrolled
- **Find Similar**—Shows schools that are similar to the one chosen

Comparing Schools
This content takes students to the College Board website where they are able to compare up to three colleges.

Visiting Campus
This content gives students a list of things to think about when visiting a school. This content provides a nice ending for a college search workshop with students.

Campus Life
These lists of questions get students thinking about living away from home on a college campus.

Apply
This easy-to-read content explains the application process.
- Completing Your College Applications: 10 Tips
- Admissions Decision Letters
- On the Wait List? Don’t Give Up

College Prep for Different Types of Students
This section provides an overview, considerations, and college outlook for specific types of students:
- Home-Schooled Students
- Cyber School Students
- Athletes
- Students With Disabilities
- Nontraditional Students

Paying for School
Student Aid Checklists
We provide student aid checklists for middle school and high school.

Dollars and Sense
- Tips to Get Started
  This easy-to-read content talks about budgets and savings.
  [YouCanDealWithIt.com](https://www.youcandealwithit.com)
  This PHEAA-owned website helps students with free money tools, tips, and resources.
Student Aid 101

- Student Aid Basics: 10 Tips
  This content is good for students to read in their senior year of high school. Print out a bunch of copies to have handy for students and parents.

- The Importance of the FAFSA
  Find an overview of the FAFSA, information on eligibility, and instructions on how to apply. Links from our websites to the federal websites let students apply for an electronic PIN and apply directly at FAFSA on the Web.

- Are You Dependent or Independent?
  Students need to understand the difference between being dependent and independent for the purpose of student aid and why they must provide parent data.

- The Role of the Financial Aid Office
  Mention this content at the end of a student aid event to refer parents to our website.

Ways to Pay

- 10 Ways to Reduce College Costs
  Find tips to reduce college costs for students. These tips are good for parents too.

- Grants
  Find an overview of grants, information on eligibility, and instructions on how to apply.

- Scholarships
  Find an overview of scholarships, information on eligibility, and instructions on how to apply. Students can link directly to fastweb.com.

- Loans
  Learn about the different types of loans available to students and parents, including:
  - Direct Stafford Loans
  - Direct PLUS Loans for Parents
  - Direct PLUS Loans for Graduate and Professional Degree Students
  - Perkins Loans
  - Private Education Loans

- Work-Study Employment
  Find an overview on work-study employment, information on eligibility, and instructions on how to apply.

- Military Service
  Find an overview of the educational benefits associated with military service, information on eligibility, and instructions on how to apply.

Find Grants and Scholarships
Students can link directly to grant and scholarship resources.
Student Aid Packages
Consider providing this tool to parents and students at student aid events and FAFSA completion sessions.

- What Is a Student Aid Package?
  It helps students/families to see in numbers how much aid does not need to be paid back and how much a student has to pay out of pocket.

- Compare Your Student Aid Packages
  Students can link directly to the College Board website to compare student aid packages.

Paying for School Q&A
This interactive quiz provides instant answers.

Calculators

- Reach Your Savings Goals
  For saving money

- Watch Your Savings Grow
  For saving money

- Estimate Your Expected Family Contribution
  Links students to the expected family contribution calculator on the College Board website; good to refer to at student aid events

- Estimate Your Monthly Loan Payments
  Shows students what their monthly loan payment is going to be; a real eye opener for the student who says “I will worry later about how much I owe.”

Self-Assessments

What Kind of Student Are You?
This quiz is quick and interactive.

What’s Your Learning Style?
This interactive 20 question quiz gives instant results.

Which Study Habits Can You Improve?
This interactive quiz helps students see where they need to improve their study habits.

How Strong Is Your Character?
This interactive quiz provides results about character traits.

Ask a Counselor
This question and answer section provides a few examples. We also allow users to “Submit a Question.” Selected staff in PA School Services review submitted questions and provide an email response back to the student, parent, or counselor.
Stay "in the know" as your child gets ready for the future.

As your child gets older, he or she will face educational and career decisions that can seem overwhelming. Do what you can to help ease your child’s transition from high school to college, to the "real" world.

To prepare for your role in this family event, educate yourself about educational costs, the college admissions process, and student aid.

- **Your Child and Money**
  Learn how to get your son or daughter off to a solid financial start.

- **Making Sense of ACT/SAT Scores**
  Understand the ACT® and SAT® tests as your child knows what to expect.

- **Why Save for Your Child’s Future?**
  Avoid some of the common reasons why parents don’t save for college.

- **The Skyrocketing Costs of College**
  Find out why college costs have been increasing and will continue to do so.

- **You and the FAFSA**
  Ensure your child has access to as much student aid as possible.

- **The Scholarship Search: Tips for Parents and Students**
  Make the scholarship search your college-bound child’s number one priority.

- **Ask a Counselor**
  Take a look at some common questions counselors get from parents.
Parents

- Your Child and Money
  Find tips for parents on children and finances.

- Making Sense of ACT/SAT Scores
  Get an explanation of the ACT and SAT tests, as well as links to the test websites.

- Why Save for Your Child's Future?
  Find out why saving for college is important.

- The Skyrocketing Costs of College
  Understand why college costs are increasing and learn how to prepare.

- You and the FAFSA
  Learn why the FAFSA is needed and get links to the FAFSA on the Web.

- The Scholarship Search: Tips for Parents and Students.
  Find links to fastweb.com and, for unusual scholarships, to finaid.org.

- Ask a Counselor
  This question and answer section provides a few examples. We also allow users to “Submit a Question.” Selected staff in PA School Services review submitted questions and provide an email response back to the student, parent, or counselor.

Refer parents to this section during student aid events.
Get your students ready for life beyond high school.

EducationPlanner is a great tool to get your middle school and high school students thinking about careers and education. Help your students discover their interests and explore their options.

We offer solutions that can help you overcome some common barriers to student success.

- **ASCA National Standards for Students**
  Understand why the ASCA National Standards for Students are so important. The ASCA National Standards were developed by the American School Counselor Association.

- **EducationPlanner as a Computer Lab Activity**
  Use this computer lab activity to introduce EducationPlanner to your students.

- **Setting up a Job Shadowing Program**
  Want to start a job shadowing program at your school? We can help.

- **Hosting a Student Aid Event**
  Schedule a student aid event to explain the student aid process to parents and students.

- **Ask a Counselor**
  Take a look at some common questions counselors get from counselors.
Counselors

- ASCA National Standards for Students
  Get a brief explanation of the ASCA standards and the ways that EducationPlanner.org can help counselors achieve these standards. Introduce counselors to this information before showing them the website.

- EducationPlanner as a Computer Lab Activity
  Find out how to plan and conduct the activity in a computer lab. Share this with counselors during an initial meeting and before going into the classroom for an activity.

- Setting up a Job Shadowing Program
  This guide for counselors discusses planning a job shadowing program, implementation, and follow up.

- Hosting a Student Aid Event
  Get tips for setting up a student aid event.

- Ask a Counselor
  This question and answer section provides a few examples. We also allow users to “Submit a Question.” Selected staff in PA School Services review submitted questions and provide an email response back to the student, parent, or counselor.
EducationPlanner.org is your one-stop career and college planning website. EducationPlanner.org provides practical and easy-to-understand advice to help prepare students for the important decisions they will face in the future. In addition to being a resource for students, this website also provides information and tools for parents and counselors to help them motivate and prepare today’s youth for a successful tomorrow.

EducationPlanner.org was developed as a public service by the Pennsylvania Higher Education Assistance Agency (PHEAA). Created in 1963 by the Pennsylvania General Assembly, PHEAA has evolved into one of the nation’s leading student aid organizations. Today, PHEAA is a national provider of student financial aid services, serving millions of students and thousands of schools through its loan guaranty, loan servicing, financial aid processing, outreach, and other student aid programs. PHEAA’s earnings are used to support its public service mission and to pay its operating costs without any taxpayer support. PHEAA continues to devote its energy, resources and imagination to developing innovative ways to ease the financial burden of higher education for students, families, schools, and taxpayers.

PHEAA conducts its student loan servicing activities nationally as American Education Services (AES) and FedLoan Servicing. For more information, visit PHEAA.org.
