Step 4 Visit mysmartborrowing.org

Take a look at the cost of higher education, including the accumulated (overall total) debt from borrowing, and calculate your future salary and expenses.

- 1. What career did you search?
- 2. What are some of the additional costs you will have to come up with to continue your education after high school?
- What was the average net price of the school you chose? What costs are included in your net price?
- 4. How much did you estimate you would need to borrow to go to school?
- 5. What is the monthly loan payment over 10 years for how much you would borrow?
- 6. What could you do to reduce your costs so you could borrow less for your education?
- 7. What is your projected salary?

For more info about college costs go to collegecost.ed.gov and check out the Net Price Calculator.
